**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

PROTECTIVE GARMENT

- This application is a continuation-in-part application of U.S. Application Serial

claims priority to International Application Number PCT/GB99/01114, entitled
Protective Garment, filed April 12, 1999, which claims priority to U.K. Patent Nos.
9904534.6, filed February 27, 1999 and 9904754.0, filed March 2, 1999.

10 This invention relates to a garment comprising body armour. Such a garment
might be worn by a member of the armed forces, police and so on.

The armour might comprise flexible penetration resistant material and/or, for
extra protection, a rigid ceramic plate. The provision of buoyancy is useful in some
15 situations and the prior art includes several proposals for garments comprising
buoyant material such as foam sheets as well as armour.

US patent specification 5584734 proposes a garment comprising pockets for
receiving anti-ballistic inserts and buoyancy elements including an inflatable
20 chamber. The inflatable chamber is placed between the outer surface of the garment
and the anti-ballistic insert.

According to one aspect of the invention, there is provided a protective body
garment comprising penetration resistant armour, a gas inflatable bag and inflation
25 means for inflating the bag to provide buoyancy to a wearer of the garment when
immersed in water, characterised in that the bag is arranged for extending between
the armour and the wearer's body when the garment is being worn and the garment
